Monster

Words and music:
Chris Hutchings

Freely (♩ = c.72)

all singers independently sing boxed phrases, repeating while arrow lasts; parts enter in sequence shown, 3-4 seconds apart
independent tempi, as if all intoning separate magic spells

In writing this piece, I saw a vision of a dinosaur skeleton emerging from a cliff after a storm, caused by fossil-fuel-driven climate change. *Lepidodendron*, *diaphorodendron*, *sigillaria* and *calamites* are the Latin names for four of the main types of trees that decayed and fossilised to form coal, and should be pronounced as you normally sing Latin (soft j on "sigil").
